Summary

Software Development Engineer with 3+ years of experience building responsive, scalable frontend applications using React.js, Next.js, Redux, React Query, and Axios. Skilled in HTML, CSS, and JavaScript for pixel-perfect UI development, performance optimization, and reusable component design. Currently expanding into cross-platform development using React Native.

Experience

Software Development Engineer <i>Accure Softech Pvt Ltd, Pune, India</i>	Nov 2023 – Present
<ul style="list-style-type: none">Developed dynamic and reusable React.js components with Redux Toolkit and React Hooks.Integrated REST APIs using Axios and coordinated with backend teams for seamless data flow.Optimized UI performance and responsiveness across web applications.Conducted testing, debugging, and implemented feature improvements in Agile sprints.Managed codebase with Git, performing pull requests and participating in code reviews.	
Associate Software Development Engineer <i>Emtec Pvt Ltd, Pune, India</i>	Feb 2023 – Oct 2023
<ul style="list-style-type: none">Built responsive frontend components using React.js and managed state with Redux Toolkit.Connected UI to backend APIs, handling loading and error states efficiently.Collaborated in Agile teams to deliver features on schedule.Assisted in debugging, testing, and improving code quality.	
Trainee Software Development Engineer <i>Emtec Pvt Ltd, Pune, India</i>	Aug 2022 – Feb 2023
<ul style="list-style-type: none">Learned and implemented frontend development using React.js, HTML, CSS, and JavaScript.Supported development of UI components and API integration tasks.Gained hands-on experience in version control with Git and team collaboration.	

Projects

Thread By Varnika (E-Commerce Custom Tailoring Platform)

Next.js, Tailwind CSS, React Query

- Designed and developed a fully responsive e-commerce platform for custom tailoring with product browsing, filtering, and checkout.
- Implemented product pages, feature modules, CTA sections, and story components with optimized layouts for faster rendering.
- Integrated REST APIs for cart management, order tracking, and secure checkout workflows.
- Ensured mobile responsiveness and performance optimization across devices.

Awjar Bank (Smart Farming Vehicle & Driver Management Platform)

React.js, Manual CSS, Redux

- Developed role-based dashboards for Admin, Owner, Driver, and Farmer roles, enhancing task visibility and efficiency.
- Integrated REST APIs for vehicle availability, bookings, user profiles, and ratings.
- Designed booking flows, vehicle condition monitoring, and profile review components.
- Collaborated with backend developers on API contracts and error handling.

RPAAS (Legacy Process Automation System)

React.js, REST APIs, Git

- Contributed to front-end development of legacy automation workflows using React.js.
- Enhanced UI components, resolved bugs, and implemented performance optimizations.
- Participated in code reviews and collaborated with team members to maintain consistency.

Technical Skills

Languages: JavaScript, HTML, CSS

Frameworks / Libraries: React.js, Next.js, Redux Toolkit, React Query, Axios, Tailwind CSS

Databases / Tools: SQL, MS SQL, Git, GitHub, VS Code, Postman

Learning: React Native, TypeScript

Education

M.Sc Computer Science <i>Shivaji University, Kolhapur</i>	Aug 2020 – May 2022
	85.83
B.Sc Computer Science <i>Shivaji University, Kolhpur</i>	Aug 2017 – May 2020
	75.08

Certifications

Full Stack Software Development – JSpiders Institute, Pune (2022)

Junior Software Developer – Rooman PMKK, Satara (2021)
